

# Deceptively real

Looking deceptively real, an Opti-myst fire will captivate you from the moment you see it. The fully 3-dimensional effect creates authentic looking 'flames' and 'smoke' – an illusion so effective that it is difficult to distinguish from the real thing.

And now you can add Opti-myst to your own creations, with a choice of 2 sizes of cassettes or 2 sizes of chassis engines which include a fan heater.
